

MS1-05 USER INSTRUCTIONS

The **A/C** button will switch the unit on or off. The display shows the sensed temperature until either of the **▲** or **▼** buttons are depressed. The set point will be displayed and continuing to press either the **▲** or **▼** buttons will increase or decrease the set point. If the **▲** or **▼** buttons have not been depressed for 5 seconds the display will revert to the sensed temperature.

*Note the range of this adjustment can be restricted.

The **Mode** button will toggle between Auto and Disable mode. In Auto mode the controller can be started or stopped from the **A/C** button or the Timeclock and After Hours Inputs.

In Disable mode the controller will remain off regardless of the **A/C** button status or the Timeclock and After Hours Inputs.
